# BioSyn® DNA and RNA Solvents and Reagents

Honeywell Burdick & Jackson® BioSyn® Solvents and Reagents are specifically processed and purified to exacting specifications, ensuring outstanding synthesis efficiency. This makes them ideal for oligonucleotide synthesis regardless of the application. All solvents and reagents are filtered (0.2-micron for oxidation reagents and 0.1-micron for all other reagents) to minimize particulate contamination.

The BioSyn line includes a wide range of DNA and RNA synthesis reagents including deblocks, activators, capping reagents and oxidizers all in various formulations as well as acetonitrile with extremely low water content. BioSyn products address the needs of users in pharmacogenomics, diagnostics and drug discovery technologies and are routinely used in oligo synthesis to produce quantities ranging from lab scale through production levels.

BioSyn solvents and reagents are available in a range of package sizes from 45mL glass bottles to 1,250L bulk containers. Packaging is designed to facilitate direct connection to popular synthesizers.

Burdick & Jackson continues to expand the BioSyn line of products to accommodate novel chemistries and formulations. These development activities are supported by the in-house capability to synthesize oligonucleotides. We invite customers to contact our in-house technical experts to discuss custom reagent formulations that do not appear in the product listings as well as special packaging requirements.

## Features

- Low water content solvents, well suited for moisture sensitive applications
- High purity reagents to ensure improved over-all yield of final products
- Consistent quality manufacturing standards
- Packaging designed to facilitate direct connection to popular synthesizers

## Packaging Options

- 1L, 2L, 2.5L and 4L glass bottles
- 20L stainless steel NOWPak® II containers (NPII)
- 20L HDPE NOWPak® containers (NPI)
- 56L and 200L Stainless Steel Pressure Dispense System (SSPDS)
- 200L Bag In Container (BIC)
- 1,250L bulk containers
- Tank truck
